## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 29 August 2003 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 22-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention, as explain herein below:

- a. Regarding claims 22-27, independent claim 22 recites "a hand-held mixer (1) which, in addition to the switching module, has two mains terminals (10,11)". However, the specification as originally filed fails to describe any mains terminals "in addition to the switching module". To the contrary, the mains terminals (10,11) are a part of the switching module. See page 4, lines 31-32 of the

specification "first module 9 has two mains terminals 10 and 11" and see the final paragraph of the specification.

b. Claim 24 additionally fails to comply with the description requirement for the following reason: Claim 24 recites "the module comprises connecting leads (62, 63, 64, 65, 66,) fixedly connected to the module (9) and having free ends (67, 68, 69, 70, 71)". However, according to the specification as originally filed, the module does not comprise "connecting leads (62, 63, 64, 65, 66,) having free ends (67, 68, 69, 70, 71)". As seen in Fig. 10, these leads and free ends are outside the rectangle indicating module (9). Page 7, line 31 states that the leads are "connect to" the module and the last sentence of the specification (page 10) states "connecting leads which are external to the first module are required".

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 22-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Independent claims 22 recites two sets of "two mains terminals (10,11)" one in line 2 of the claim, which is required not to be part of the "module," and the other in line 13, which is required to be part of the module. It is unclear to which set subsequent references to "the two mains terminals (10,11)" refers.

***Allowable Subject Matter***

6. Claims 28-30, 32-39 and 41 are allowed.
7. Claims 31 and 40 will be allowed if the reference character "16" is omitted.

***Response to Arguments***

8. Applicant's arguments are moot in view of the new grounds of rejection and the indication of allowable subject matter.

***Conclusion***

9. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
